

YOUTH ACTION BOARD

INTRODUCTION

The YSCF Youth Action Board uses philanthropy and leadership to teach Yellow Springs teens how to change the world.

Fourteen students from the Yellow Springs area joined this year's Youth Action Board. They collectively spent 840 hours working to improve their communities while becoming leaders and activists in the process. The team completed a community needs assessment on the most pressing issues facing youth in Yellow Springs, raised awareness of the issues with the community, and fundraised \$4,400 for local nonprofit organizations benefitting youth across the Yellow Springs area.

FUNDING PRIORITY

After many hours of research, the Youth Action Board decided to focus on the following funding priority:

Insecurity of Needs

The Youth Action Board believes that access to affordable local housing, healthy and nutritious food, and hygiene products (toiletries and menstrual items) are a basic and necessary human right that should not be restricted by one's socio-economic status, race, identity, mobility, or any other possible discriminating factor. Young people experience a variety of emotional distress including lack of confidence, dignity, embarrassment, insecurity, loss of self-esteem, hunger, and many health issues related to the lack of these basic human needs. We have seen these insecurities magnified through the pandemic, and believe continued support for these insecurities can increase our youth's capacity to thrive physically, intellectually, and emotionally into adulthood.

FUNDRAISING

The Youth Action Board created a fundraising plan to raise as much money as possible to support their chosen priority. They met with local business, community, and nonprofit leaders (known as "Impact Partners") from across the Yellow Springs area to talk about their funding priorities and ask community leaders to invest in their work.
