

Who We Are

Established in 1974, local business people were challenged by the many requests made for funds and the desire to make an impact. They pooled their annual donation budgets and engaged a community committee to determine how to grant the funds, created the YSCF. The same challenge exists today for businesses – many great opportunities, limited philanthropic budgets and a desire to have local impact. The YSCF is positioned to help you.

Our Mission

Entrusted with the responsibility of enhancing community life, we are a catalyst and resource for local charitable giving and grant making.

Contact us today for more information on how the YSCF can help your company develop a rewarding philanthropic plan.
